

UK International Strategy for Nuclear Safety Research

Peter Storey ND

Contributions

- Nuclear Directorate
- British Energy
- Magnox
- Sellafield
- NDA
- Nexia Solutions (Nuclear National Lab.)

Reasons for International Activities

- Access to key expertise, facilities and data
- Access to collaborative research programmes
- Engagement in jointly funded research
- Benchmarking UK methodologies
- Influencing international safety standards
- Providing benefit to UK research community

Conclusions

- Policy requirement on ND to seek opportunities from overseas research
- Beneficial in accessing skills, facilities and research not available in UK
- Provides opportunities for cooperating and collaborating on common safety issues
- Provides access to up-to-date technical developments and ability to benchmark our knowledge and know-how
