## SUPPLEMENTARY REPORT 2003

### Health and Safety Offences and Penalties in Local Authority Enforced Sectors

A report by the Health and Safety Executive and Local Authority  
Liaison Committee (HELA)

(Including a list of all health and safety offenders convicted  
between 1<sup>st</sup> April 2002 and 31<sup>st</sup> March 2003, following  
investigations by Local Authorities)

**NB. The list of offences and penalties records only those cases notified by local authorities to HSE's Local Authority Unit (LAU) and is not necessarily comprehensive.**

**All information on convictions and penalties contained in the list has been supplied and verified by the prosecuting LA (or investigating LA in Scotland).**

**For further information on specific cases, contact the relevant local authority.**

## 1. INTRODUCTION

1.1 This report supplements the HELA 2003 Annual Report and the accompanying 'National Picture', which contain respectively a summary of the enforcement activities reported by local authorities (LAs) and a quantitative analysis of the enforcement statistics for the reporting year 2002/03 based on data supplied voluntarily to HSE in their annual returns (LAE1's).

1.2 The list of offenders and penalties in this Supplementary Report provides details of individual charges laid against duty holders, which led to a conviction during the reporting year 2002/03, and indicates the fines imposed by the Courts. A total of 374 convictions relating to health and safety at work or in workplaces were reported by 98 LAs (including 62 offences by 7 fire authorities/county councils). The average fine was £3676. However two cases led to distinctly higher fines of £100.000 and £180.000 (3 x £60.000) which when excluded gives an average fine of £2959.

1.3 This Report is not necessarily comprehensive as it contains only those cases which prosecuting LAs have notified to HSE's Local Authority Unit (LAU). LAs have also supplied this information voluntarily and have verified the details contained in the report. 271 local authorities reported no cases heard during 2002/03 and returned a nil return. A list of LAs from whom we have received no information is attached at [annex 1](#). For further information on specific cases, contact the relevant local authority.

1.4 There are several reasons why people may wish to know about a duty holder's health and safety record, in particular where the duty holder is guilty of an offence. For example, businesses who are properly concerned to comply with the law and to provide a quality service overall will want to know about the health and safety management record of businesses who submit tenders to supply goods or services. Insurers should be able to consider the health and safety record of a business before setting premiums for compulsory employers liability insurance. Investors may want to consider all aspects of the management competence of a business before putting money into it. In particular, investors who take account of ethical criteria may want to know about a business's compliance with health and safety law. People seeking work may also want to be aware of a possible employer's health and safety convictions.

1.5 HELA supports the policy to publish a list of convicted duty holders, including individuals. There are over 400 LAs and this report has been compiled with the intention of providing one central register, available on the HSE website. This report aligns LAs with HSE's Report on Health and Safety Offences and Penalties, which was published for the first time in October 2000. Details of HSE's prosecution cases are also available on HSE's website ([www.hse.gov.uk/policy/enforce.pdf](http://www.hse.gov.uk/policy/enforce.pdf)). However, unlike HSE's version the register of LAs cases is not a searchable database but a pdf report in tabular form

1.6 HELA is also committed to giving easy access to publicly available information about LAs other enforcement actions but currently there is no mechanism to collect and collate detailed information on improvement and prohibition notices. However, LAs are required to make information available publicly in line with the Environmental Information Regulations 1992, within the restrictions placed on disclosure and for the purposes set out in the Health and Safety at Work etc Act 1974, and under the Data Protection Act 1998. Relevant information on enforcement action should be available in public registers, which may be consulted at LA offices.
