

Health and safety offences and penalties in local authority enforced sectors 2006/2007

A report compiled by the Health and Safety Executive

(Including a list of offenders convicted under health and safety legislation
between 1 April 2006 and 31 March 2007 following investigations
reported by Local Authorities)

NB. The list of offences and penalties is a record of the cases notified by local authorities to HSE's Local Authority Unit and is not necessarily comprehensive.

All information on convictions and penalties contained in the list has been supplied and verified by the prosecuting LA (or investigating LA in Scotland).

For further information on specific cases, direct contact should be made with the relevant local authority.

Introduction

1. This report is based on data supplied to the Local Authority Unit (LAU) of the Health and Safety Executive (HSE) by Local Authorities (LAs) in their health and safety returns for the reporting year 2006/07.
2. The list of offenders in the report provides details of the individual charges laid against duty holders that resulted in a conviction together with the penalties imposed by the Courts. It also contains details of 21 informations laid by LAs that were subsequently withdrawn.
3. There were a total of 318 convictions. Of these:
 - 314 were for LAs
 - 4 for County Councils
 - 0 for Fire Authorities
4. The total amount of fines imposed was £2,195,544.00 an average fine per conviction of £6,904. The largest fine for a single company was £175,000.00. One case has not been included in this data as no verdict was reached specifically for the health and safety offences as the verdict was 'guilty of manslaughter'.
5. This report is not necessarily comprehensive as it contains only those cases that prosecuting LAs and County Councils have notified to LAU. There were no cases from Fire Authorities. They have supplied this information voluntarily and all the details supplied have been verified. Of these:

- 100 provided details of prosecutions
- 267 sent a nil return for prosecutions
- 43 have given no response

6. There are several reasons why people may wish to know about a duty holder's health and safety record, in particular where the duty holder is guilty of an offence. For example, businesses who are properly concerned to comply with the law, and to provide a quality service overall may want to know about the health and safety management record of businesses who submit tenders to supply goods or services. Insurers should be able to consider the health and safety record of a business before setting premiums for compulsory employers liability insurance. Potential investors may want to consider all aspects of the management competence of a business before putting money into it. In particular, investors who take account of ethical criteria may want to know about a business's compliance with health and safety law. People seeking work may also want to be aware of a possible employer's health and safety convictions.

5. There are 410 LAs in Great Britain that are enforcing authorities under the Health and Safety at Work etc. Act 1974. This report has been compiled with the intention of providing one central register with HSE, as the national Enforcing Authority, and available on the HSE website. The report aligns LAs with HSE's Report on Health and Safety Offences and Penalties, which was published for the first time in October 2000. The first report on LA prosecutions (for 2000/01) was published in December 2001 and was supported by HELA (Health and Safety Executive/Local Authority Enforcement Liaison Committee). This and subsequent annual reports are available on HSE's website (<http://www.hse.gov.uk/lau/publications.htm>). Details of HSE's prosecution cases are also available on HSE's website (<http://www.hse.gov.uk/policy/enforce.pdf>). However, unlike HSE's version the register of LA's cases is not a searchable database but a pdf report in tabular form.

6. Local Government is committed to giving easy access to publicly available information about LAs enforcement actions but currently there is no mechanism to collect and collate detailed information on improvement and prohibition notices. However, LAs are required to make information available publicly in line with the Environmental Information Regulations 2004, within the restrictions placed on disclosure and for the purposes set out in the Health and Safety at Work etc. Act 1974, and under the Data Protection Act 1998. Relevant information on enforcement action should be available in public registers, which may be consulted at LA offices.

Defendant	Standard Industrial classification descriptor	Hearing Date	LA name	Full Act/Regulation breach	Sec	Reg	Subsec	Penalty/Outcome	Individual Fines
