Dear Emmie

British Nuclear Group Training Department is delighted to support this year's Better Backs campaign to tackle back pain in the work place.

We are serious about managing the risks of back pain at work and will be demonstrating our support by taking the following actions:

- ***Run manual handling training courses***
- ***Ensure all candidates do a manual handling lift to a specific standard***
- ***Ensure managers of people and people organising the work are aware of the adverse effort of manual handling injuries***

By doing these things we plan to achieve the following:

- ***Reduction in manual handling injuries/accidents***
- ***Greater understanding of manual issues on our site***
- ***Give organisational attention to a serious problem***

British nuclear group is committed to working with HSE and the Local Authorities on this issue - together we can make a real difference.

Yours sincerely

Anne I Thompson

Conventional safety training course manager of managing safely in the nuclear industry
