

ADVISORY COMMITTEE ON DANGEROUS PATHOGENS

WORK PLAN FOR 2009/2010

Issue

1. Based on last year's work plan (Annex 2) and current developments, a work plan for 2009/10 has been drafted for Members' consideration (Annex 1).
2. It should be noted that, in 2010, due to the introduction of the new Single Regulatory Framework, the remit and membership of the Committee may need to change.

Action

3. Members are asked to consider the draft ACDP Work Plan for 2009/10 and suggest any amendments.
4. Once the Work Plan is signed off by the committee, it will be put on the ACDP HSE website at:
<http://www.hse.gov.uk/aboutus/meetings/committees/acdp/index.htm>
5. The ACDP TSE Working Group will agree their Work Plan for 2009/2010 at their meeting in March 2009, and this will also go on the ACDP website.

Secretariat

January 2009

ADVISORY COMMITTEE ON DANGEROUS PATHOGENS

DRAFT WORK PLAN FOR 2009/2010

1. To formulate a common set of containment measures to apply to animal and human pathogens¹, following the review of the regulatory framework for animal pathogens (Callaghan review).
2. To advise the Department of Health on the type of isolation facilities to be provided within the NHS.
3. To maintain oversight of the work plan of the ACDP TSE Working Group.
4. To complete the revision of the ACDP 1996 Guidance: 'Management and Control of Viral Haemorrhagic Fevers'.
5. To consider the re-categorisation of Polio virus – dependent on the progress of the global polio eradication programme.
6. To develop additional guidelines to add to existing ACDP advice on working with influenza viruses, specific to reconstructed 1918 influenza virus, in conjunction with the Scientific Advisory Committee for Genetic Modification.
7. To draft additional guidance on working with *Neisseria meningitidis*

¹As a minimum this will involve revision of 'The Management, Design & Operation of Microbiological Containment Laboratories' and 'The Principles, Design & Operation of Containment Level 4 Laboratories'

ADVISORY COMMITTEE ON DANGEROUS PATHOGENS

WORK PLAN FOR 2008/2009

1. To formulate a common set of containment measures to apply to animal and human pathogens¹, following the review of the regulatory framework for animal pathogens (Callaghan review).
2. To complete the revision of the ACDP 1996 guidance: 'Protection against blood-borne infections in the workplace: HIV and hepatitis'.
3. To advise the Department of Health on the type of isolation facilities to be provided within the NHS.
4. To maintain oversight of the work plan of the ACDP TSE Working Group.
5. To complete the revision of the ACDP 1996 Guidance: 'Management and Control of Viral Haemorrhagic Fevers'.
6. To advise on Safety Performance Indicators, following progress on this with the Containment Level 4 user group.
7. To consider the re-categorisation of Polio virus – dependent on the progress of the global polio eradication programme.
8. To develop additional guidelines to add to existing ACDP advice on working with influenza viruses, specific to reconstructed 1918 influenza virus, in conjunction with the Scientific Advisory Committee for Genetic Modification.

¹As a minimum this will involve revision of 'The Management, Design & Operation of Microbiological Containment Laboratories' and 'The Principles, Design & Operation of Containment Level 4 Laboratories'
