

ACTS and REACH

What should ACTS remit be?

- What are the boundaries for any ACTS discussion?
- How can ACTS add value?
 - Problem identification and possible solutions
 - Options compatible with HSC/E's objectives
 - Use of expertise available within ACTS and available to ACTS members

What areas of expertise, available to ACTS members could be of value?

- Identifying issues associated with the implementation of the legislation which could:
 - Lead to regulatory conflicts with either existing or proposed new legislation
 - Disparity between objective and probable effect
- Ensuring the level European playing field
 - Consistent interpretation and application of the legislation
- Identifying issues related to chemicals of particular interest to the UK
 - Socio-economic
 - Substitution
