HEALTH AND SAFETY COMMISSION

CONSTRUCTION INDUSTRY ADVISORY COMMITTEE (CONIAC)

Reconstitution of CONIAC

Issue

1 This paper concerns the reconstitution of CONIAC in accordance with revised guidelines.

Background

2 Paper M1/2002/6 presented at CONIAC meeting 1/2002 (27 March 2002) set out the background and informed members that HSE had yet to agree proposals for managing AC's. Members were further updated on this issue at CONIAC meeting M2/2002.

3 Proposals setting out a recommended 'fit for purpose' structure within which HSE can administer AC's are contained within an HSE Board paper released on 10 October as an open document. This is attached as an annex to this paper.

Action

4 Members are invited to:

- Note the attached Annex - 'Managing HSC's Advisory Committees'; and
- Note that reconstitution of CONIAC will be taken forward in accordance with the guidelines set out in the paper.
