

# **CONTROL AND INSTRUMENTATION NUCLEAR SAFETY RESEARCH**

## **KEY MESSAGES**

By

R L Yates

HM Nuclear Installations Inspectorate

# Key Messages

- Adequate, balanced programme
- Work directed at C&I technological developments, plant operational issues, safety case production and key resource support
- Significant number of issues relevant to all licensees
- Predominant focus on issues surrounding use of computer based equipment
- Responsive to emerging demands
- New CINIF management arrangements working well
- Research results informing Licensee/NII approaches (e.g. standards, guidance and SIS implementation)
- Challenges exist for the future (e.g. funding and technological)
