

IWPPA Progress Report

Working with the CPI via the joint Health & Safety committee, the IWPPA will be following the principles of the action plan drawn up by the CPI, with a similar approach to PABIACs Strategic Objectives 2008 - 2011, to work towards improvements within the recovered paper industry

IWPPA's accident rate for the year ending December 2007 was 6.5 per 1000 employees compared to 13.51 for 2006, representing a 52% reduction. We continue to work with our members to help them monitor and improve their performance as and where required, whilst being aware of limitations specific to small independent merchants.
