

# Example Risk Assessments

---

There are 29 example risk assessments on the HSE website.

5 due to be added in October

These are to show Small to Medium Businesses (SME's) what a 'good enough' record of a risk assessment might look like

# Listening and learning

---

Almost 1 million businesses could benefit by using the examples as a guide to producing their own

We have taken on board all your feedback and comments on the examples and now ask for further support in reaching these businesses

# You are the Key

Many of you are already heavily engaged in promoting these to your members

A number of you have already produced your own examples for distribution

We now ask you all for a further push, as you are the main key to us reaching these businesses

Example Risk Assessments up for the National Business Awards 'Better Regulation Award'

Anne Strype will now share HSE's comms plan

# A Further Drive

We need to drive the message further into more businesses

We want to see further take-up in business

We want to see more business adopting and adapting the examples to their needs

- Flyer
- HSE Books
- Conferences
- Inspector Visits
- E-Bulletin
- E-Pack
- Articles

# HOW?

Direct members to website  
[www.hse.gov.uk/risk](http://www.hse.gov.uk/risk)

Roll out of E-Pack

Order flyer for conferences (misc845)

Article in publications

# Your Ideas

I am sure many of you have some great ideas and routes to getting information to your members

Tony and I are happy to hear your ideas and take any questions

However, it may be a good idea to hold on this for the time being as HABIA are kindly going to present to us on how they communicate information to their members

The HSE Better Regulation team is currently running a mini evaluation. Final results are due at end October but we can confirm that it is proving to be positive

We will update you on this at the January meeting when we will need to think about what we do next
