Our role – enabling Forum to:

- make early input to policy/service development (right issue, right people, right time)
 - be confident you are well equipped to promote h&s with members (campaigns, guidance, regulation)
- “Prevention and promotion”

Our role – more widely:

- promoting 'Think Small First' culture
(impact tests, consultation, follow through on Forum discussion)
- SME friendly products
(guidance, business.gov)

Today's agenda

- early input (consulting employees)
- briefing on hot topics (better regulation, noise guidance)
