

Every week 3 plumbers die  
from this hidden killer.

A photograph of a plumber in a dark, confined space, likely a roof or attic. The plumber is wearing a blue work jacket and a yellow tool belt. He is kneeling on a wooden beam and using a long-handled tool to work on a pipe. A bright light fixture is visible in the upper right, illuminating the scene. The background shows wooden rafters and a brick wall.

**ASBESTOS**

Asbestos is responsible for over 4000 deaths every year, and it could still be hiding in anything built or refurbished before the year 2000.

Don't you owe it to your workmates and your family to protect yourself?
