

Dear Colleague,

## A European Campaign on Risk Assessment

Welcome to your Action Pack for the 2008-09 European Campaign for Safety and Health at Work on risk assessment.

This campaign is aimed at a wide range of stakeholders, including employers, workers and safety representatives, and is intended to promote the benefits of completing and implementing a risk assessment. The campaign seeks to demystify the risk assessment process to show that risk assessment is not necessarily complicated, bureaucratic or a task only for experts.

The campaign also aims to raise awareness on this issue, provide information and practical advice, encourage activities that have a positive impact in the workplace, and identify and recognise good practice.

This action pack contains helpful leaflets, posters and fact sheets on risk assessment.

For European Week itself on October 20-24, HSE is working in partnership with the TUC on training events for safety representatives and with EEF on a series of regional seminars. However, we welcome organisations and local authorities organising their own events for the European Campaign.

Information on this and further details on the UK campaign's activities and outputs (including access to a downloadable version of this action pack) are available from 24 June on the HSE campaign website at: <http://www.hse.gov.uk/campaigns/index.htm>

The European Agency for Safety and Health at Work's campaign website, where you can also find out more about the European Good Practice Awards 2008, can be found at: <http://osha.europa.eu/en/campaigns/hw2008>

I wish you every success with your campaign.

Yours sincerely,

A handwritten signature in black ink that reads 'Jason Batt'.
