

## ALPHABETICAL INDEX LIST OF ORGANISATIONS/INDIVIDUALS WHO RESPONDED TO THE 2005 CONSULTATION ON REVISED CONSTRUCTION REGULATIONS

The list below contains the names of those who responded to the Health and Safety Commission's consultation on proposals for a single set of Construction Regulations, and supporting guidance, covering construction work in Great Britain (<http://www.hse.gov.uk/consult/condocs/cd200.htm>). The list is in alphabetical order, indexed by the name of the respondent. Where a respondent is commenting on behalf of the organisation, the index lists the name of the organisation. Where a respondent is commenting in a private capacity, the index lists the respondent's surname.

The "RID" (Respondent Identification) number in the left-hand column corresponds with the RID number in the databases, where the response from the organisation/individual identified can be found.

Any respondent could withhold their names (and responses) in which case the index has been left blank for that respondent (see blank list at end of table). (Please note that, for completion of the table, this blank list also includes extraneous RID numbers which originally contained separate responses from the same organisation, which were later consolidated under one RID number.)
