

A hand is holding a piece of white tape. On the tape, there is a simple line drawing of a truck falling off a ledge. Below the drawing, the text reads: "Every year around 2,000 drivers and workers are seriously injured in falls from vehicles." To the right of the text is the HSE logo, which consists of a red square with a white star and the letters "HSE" in white.

Every year around 2,000 drivers
and workers are seriously
injured in falls from vehicles.

Next time you 'spec' a vehicle

- ▶ Avoid the need to work at height by choosing ground-based controls
- ▶ Provide safe access to all parts of the vehicle
- ▶ Insist on slip-resistant surfaces

Don't chance it
