Hi [REDACTED]
Cc: [REDACTED]

They're your applications, or rather they're applications for your products. The support of the stewardship scheme and justification of area cannot be said to have come as a surprise. Of course we'll process these once we get the information we need once it's been agreed between yourselves, NFU and Bayer but there's going to come a point where we're not going to be able to turn these around for issue before mid-June and we will need to factor the diminishing benefit of the anticipated later authorisation date into our advice to both ACP/ECP and ministers. I've advised that we need this information by next Tuesday but so long as you're aware of the above I'm content to wait for as long as you need.

All the best,

[REDACTED]

Hi [REDACTED]

Just to let you know that I won't be in a position to confirm anything by the end of today.

Regards
[REDACTED]

Hi [REDACTED]

I'm heading off for the day and I'll be in late tomorrow. Once I had a fuller understanding of Syngenta's position with regard to being happy to use the stewardship scheme from last year and being happy to pass the document along to Bayer I had intended to contact Bayer to confirm the situation separately.

In the (hopeful) assumption that you are content to do this then in order to maintain a schedule with a chance of meeting the mid-June deadline would you be able to pass it (and the draft case for total area) directly to Bayer? I know [REDACTED] at the NFU won't be in tomorrow either to help coordinate and we'll not be able to go to the ECP until we have a scheme and area that satisfies everyone so the sooner they get it the better.

I'll be in from midday or so if you wish to discuss further.

Thanks [REDACTED]

Dear [REDACTED]

Can you provide in an email exactly what information you would like Syngenta to provide with regard to the stewardship plan so that I can send this on to our legal team so that we are clear on what it is you require?

Regards
[REDACTED]
