

Welcome to

**Improving risk assessment
through worker involvement**

Aim

Aim: to enable you to understand and apply the principles of worker involvement in dealing with risk assessment

Objectives

- understand the impact of risk and risk assessment in the workplace on health and safety in the workplace
- enable better development of partnership between workers and managers
- create an action plan to implement risk assessment through worker involvement

Introducing yourself

- Name
- Role
- What you would like from the day
- One area of risk assessment that you think would be helped by worker involvement in your place of work

What is 'worker involvement'?

A two-way process:

- listen to one another's concerns
- raise concerns and solve together
- seek and share views
- discuss issues in good time
- consider all points of view

Action planning

- Start from where you are - what's the next step?
- Don't second guess the response
- Give yourself best chance of success

- **SMART:**
 - S**PECIFIC
 - M**EASURABLE
 - A**CHIEVABLE
 - R**EALISTIC
 - T**IME FRAME
