Dear Emmie

MITIE Engineering Services (SE Region) Ltd is delighted to support this year's Better Backs campaign to tackle back pain in the work place.

We are serious about managing the risks of back pain at work and will be demonstrating our support by taking the following actions:

- **Where ever possible mechanical lifting aids will be used.**
- **Risk assessments that identify manual handling tasks will be used to design out or reduce to a minimum the need to manual handle items.**
- **Monitor and advise the work force on correct lifting methods.**

By doing these things we plan to achieve the following:

- **Maintain our excellent accident/incident record**
- **Keep a healthy and fit work force.**

MITIE Engineering Services (SE Region) Ltd is committed to working with HSE and the Local Authorities on this issue - together we can make a real difference.

Yours sincerely

George W Lewis
Health and Safety Advisor
