Dear Emmie

Esco UK is delighted to support this year's Better Backs campaign which aims to reduce the incidence and impact of back pain and upper limb disorders caused or made worse by work and to reduce the number of working days lost to these causes.

We have set ourselves the following goals with view to tackling back pain and upper limb disorders in our work place:

- **Refresher training in manual handling for all personnel**
- **Revise risk assessments for all manual handling operations**
- **Review workplace layout following recent capital investment**

We plan to achieve our goals by taking the following actions:

- **The training material has already been developed and 88% of workforce trained**
- **A follow-up training session for remaining employees will be held in January 2008**
- **A Kaizen event will be held to consider layout and workflow in the mould and core area**

Esco UK is committed to working with HSE and the Local Authorities on this issue - together we can make a real difference.

Yours sincerely

P. Bird
