Dear Emmie

Odfjell Drilling is delighted to support this year's Better Backs campaign which aims to reduce the incidence and impact of back pain and upper limb disorders caused or made worse by work and to reduce the number of working days lost to these causes.

We have set ourselves the following goals with view to tackling back pain and upper limb disorders in our work place:

- **Information to be distributed all personnel relating to the prevention of back injuries**
- **Reduce back injuries within our working environment by 50% from 2007 statistics**
- **Odfjell Drilling Safety Training Coordinators to present to all personnel back injury prevention awareness presentations throughout 2008**

We plan to achieve our goals by taking the following actions:

- ***Source information on back injury prevention, distribute through the entire workforce.***
- ***Training to be provided on manual handling to prevent back injuries throughout 2008.***
- **Feedback on manual handling training from employees training to be analysed for continuous improvements if required.**

Name of organisation is committed to working with HSE and the Local Authorities on this issue - together we can make a real difference.

Yours sincerely

Alex Selbie

QHSE Advisor
