Dear Emmie

Severfield Reeve Structures is delighted to support this year's Better Backs campaign which aims to reduce the incidence and impact of back pain and upper limb disorders caused or made worse by work and to reduce the number of working days lost to these causes.

We have set ourselves the following goals with view to tackling back pain and upper limb disorders in our work place:

- **To monitor manual handling operations**
- **Review all workstation assessments and give advice to employees about adopting good posture**
- **Investigate the use of mechanical lifting devices for a wider range of work activities**
- **Display posters throughout the company**

We plan to achieve our goals by taking the following actions:

- **Raise awareness amongst our workforce of manual handling problems and control measures**
- **Raise awareness of good posture when working at workstations**
- **Reduce time lost as a result of manual handling issues**

Severfield Reeve Structures is committed to working with HSE and the Local Authorities on this issue - together we can make a real difference.

Yours sincerely

Dave Atkinson
Health & Safety Manager
