

A photograph of a car in a paint booth. The car is on the left, partially covered with yellow plastic. A light fixture is mounted on a stand above the car. The floor is a metal grate. The background is a dark wall with a window on the right. The text "Set-up to show fine paint mist" is overlaid in yellow.

**Set-up to show fine
paint mist**

Sprayer sees paint spray fan and some immediate spread of mist.

This is **not** the whole story.

Be aware of the hidden menace

- A fine mist, invisible in normal lighting, envelopes the sprayer
- It spreads, propelled by the spray gun air jet and air movement

Fine mist is invisible in normal lighting

Now you see it

Now you don't

Fine mist is invisible in normal lighting

Now you see it

Now you don't
