## asbestos essentials

### Non-licensed tasks

This information will help employers and the self-employed comply with the Control of Asbestos Regulations 2006.

It is also useful for trade union and employee safety representatives.

Asbestos fibre can cause lung cancer and lung diseases.

Only carry out this work if you are properly trained and have the right equipment.

#### Main points

- Read the safety checklist on the task sheet.
- You must be trained to work safely with asbestos materials.

#### USEFUL LINKS

## Model statement of cleanliness after textured coating removal

### Equipment and method sheet

### What this sheet covers

This sheet is intended for trained contractors who remove textured coatings.

It sets out a model statement to issue to the client, premises owner or the occupier.

A model form is shown on the next page.

Published by the Health and Safety Executive 05/07

This guidance is issued by the Health and Safety Executive. Following the guidance is not compulsory and you are free to take other action. But if you do follow the guidance you will normally be doing enough to comply with the law. Health and safety inspectors seek to secure compliance with the law and may refer to this guidance as illustrating good practice.

**DRAFT**

I have checked that textured coating was removed and the area was cleaned thoroughly. Both before and after removing the airlock and enclosure, I inspected the following areas to make sure that there were no visible traces of dust or debris:

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_ (Areas inspected)

I am satisfied that the area can be returned to normal use.
