Be safe – always use the right equipment when working at height

Every year 4000 people suffer a major injury, sometimes fatal, as a result of a fall from height in the workplace. In the last six years there have been five deaths and over 3000 injuries in the education sector. If you would like further information on how to avoid falling from height, contact your head teacher or union safety representative.

Don't go to the bottom of the class
