Listing all illnesses

This section calculates whether an illness type match exists between the illness/es that the respondent reported during their LFS interview and their WRIS interview.

If a match is found to exist then the questionnaire will automatically present this matched illness for further questioning. The respondent can spontaneously object to this illness being selected and opt to choose another illness from the reported WRIS illnesses.

Alternatively, if no match is found or more than one match is found then the respondent is asked to choose which of the reported WRIS illnesses they consider to be the most serious.

The match calculation is indicated below by this symbol ‘*’.

Requesting consent to contact doctor

111. GPInt1

Thank you for taking part in this interview which we carried out on behalf of the Health and Safety Executive. I would now like to tell you about the doctor's follow-up survey that HSE will be conducting over the next few months. This survey has been approved by an NHS Research Ethics Committee, which safeguards the rights, safety, dignity and well-being of people participating in research in the National Health Service.

(1) Press <1> to continue

ASK IF: ILLWRK1 = Workill
AND: (((GP IN WHOTREAT ) OR ( Hosdoc IN WHOTREAT )) OR (Workdoc IN WHOTREAT)) OR (GPKNOW = Yes)

112. GPInt2

The doctor follow up survey will provide the HSE with a more complete picture of work-related illness. The HSE will use this information to improve its understanding of the information on work-related illness given by people who have taken part in this survey. With your permission, the HSE would like to approach the doctor who has treated you and ask him or her to respond to a short questionnaire about your work-related illness.*
