

Local Authority Clients Leading the Way

# **Health and Safety Management of Waste and Recycling Services – Round Table Discussion**

Field Operations Directorate  
Health and Safety Executive

## Round table discussion

---

- What do you think of the guidance and the case studies?
- How far away from these practices are your Authorities at present?
- Will this kind of material help you in your role?
- What help would you want from your service provider in implementing some of these ideas?
- Discuss your experiences with others on your table:
  - The good – what has worked well
  - The bad – what hasn't worked well
