HSE science and research publications 2022

- Journal papers
- Preprints
- Conference publications
- Trade and professional magazine articles
- Book chapters
- Reports by HSE scientists and expert committees
- National and official statistics publications

Journal papers

Abbott K, Buston J, Gill J, Goddard S, Howard D, Howard G, Read E and Williams R (2022) Comprehensive gas analysis of a 21700 Li(Ni0.8Co0.1Mn0.1O2) cell using mass spectrometry. *Journal of Power Sources*, 539 231585

Bacon J, Butler O, Cairns W, Cavoura O, Cook J, Davidson C and Mertz-Kraus R. (2022) Atomic Spectrometry Update - a review of advances in environmental analysis. *JAAS Journal,* 37, 9-49.

Bailey C, Johnson P, Moran J, Rosa I, Brookes J, Hall S and Crook B (2022) Simulating the environmental spread of SARS CoV-2 via cough and the effect of personal mitigations. *Microorganisms*, 10 (11), 2241

Beards P (2022) A new human factors incident taxonomy for members of the public (HFIT-MP): an investigation of escalator incidents. *Safety Science*, 147 105597

Beswick A, Fry C, Bradley CS, Pottage T, Sharpe S, Haill C, Mugglestone M, Bak A, Marsden G, Bennett A, Garvey M and Wilson A (2022) Automated room decontamination: report of a Healthcare Infection Society Working Party. *Journal of Hospital Infection*, 124, 97-120

Brainard J, Hall S, van Der Es M, Sekoni A, Price A, Padoveze M, Ogunsola F, Nichiata L, Hornsey E, Crook B, Cirino F, Chu L and Hunter P. (2022) A mixed methods study on effectiveness and appropriateness of face shield use as COVID-19 PPE in middle income countries. *American Journal of Infection Control*, 50, 878-884.

Bramwell L, Morton J, Harding A-H, Lin N and Entwistle J (2022) Determinants of blood and saliva lead concentrations in adult gardeners on urban agricultural sites. *Environmental Geochemistry and Health,* 44 (10), 3493-3513

Chen Y, Aldridge T, Ferraro C and Khaw, F-M. (2022) COVID-19 outbreak rates and infection attack rates associated with the workplace: a descriptive epidemiological study. *BMJ Open,* 12, e055643

Coldrick S, Kelsey A, Ivings M, Foat T, Parker S, Noakes C, Bennett A, Rickard H and Moore G (2022) Modeling and experimental study of dispersion and deposition of respiratory emissions with implications for disease transmission. *Indoor Air*, 32 (2), e13000

De Matteis S, Jarvis D, Darnton L, Consonni D, Kromhout H, Hutchings S, Sadhra S, Fishwick D, Vermeulen R, Rushton L and Cullinan P (2022) Lifetime occupational exposures and chronic obstructive pulmonary disease risk in the UK Biobank Cohort. *Thorax,* 77 (10), 997-1005

Drahota A, Felix L, Raftery J, Keenan B, Lachance C, Mackey D, Markham C, Laing A, Farrell-Savage K and Okunribido O (2022) Shock-absorbing flooring for fall-related injury prevention in older adults and staff in hosptials and care homes: the SAFEST systematic review. *Health Technology Assessmen*t, 26 (5), 1-196

Edwards J and Buckley P (2022) Risk of work-related violence in England and Wales. *Occupational Medicine*, 72 (1), 25-27

Fishwick D, Carder M, Iskandar I, Fishwick B and Van Tongeren M (2022) Occupational inhalational accidents; analysis of cases from the UK SWORD reporting scheme from 1999 to 2018. *Occupational and Environmental Medicine*, 79 (9), 628-630

Fishwick D, Harding A-H, Chen Y, Pearce N and Frost G (2022) Asthma in pesticide users. An update from the Great Britain Prospective Investigation of Pesticide Applicators' Health (PIPAH) cohort study. *Occupational and Environmental Medicine*, 79(6), 380-387

Fishwick D and Kiely D (2022) Vascular compression and pulmonary hypertension: the occupational context. *Occupational & Environmental Medicine*, 79 (11), 721-722

Foat T, Higgins B, Abbs S, Maishman T, Coldrick S, Kelsey A, Ivings M, Parker S and Noakes C (2022) Modeling the effect of temperature and relative humidity on exposure to SARS-CoV-2 in a mechanically ventilated room. *Indoor Air*, 32 (11), e13146

Fox S, Hanna S, Mazzola T, Spicer T, Chang J and Gant S (2022) Overview of Jack Rabbit II (JR II) field experiment and summary of the methods used in the dispersion model comparisons. *Atmospheric Environment*, 269 118783

Fransman W, Arnone M, Borghi F, Cattaneo A, Cavallo D, Cherrie J, Franken R, Galea K, Van Der Haar R, Heussen G, Jensen K, Koponen M, Koppisch D, Kromhout H, Luo Y-S, McNally K, Saamanen A, Spinazze A, Van Tongeren M, Vanoirbeek J, Verpaele S, Vetter D, Viegas S and Warren N. (2022) Response letter to Koivisto et al. 'Evaluating the theoretical background of STOFFENMANAGER® and the advanced REACH tool'. *Annals of Work Exposures and Health*, 66(4), 543-549

Frost G, Liddle M, Fairhurst C, Cockayne S, Cunningham-Burley R, Torgerson D and On Behalf of the SSHeW Study (2022) Relationship between age, workplace slips and the effectiveness of slip-resistant footwear among healthcare workers. *Injury Prevention*, 28(3), 256-258

Gartland N, Fishwick D, Coleman A, Davies K, Hartwig A, Johnson S and Van Tongeren M (2022) Transmission and control of SARS-CoV-2 on ground public transport: a rapid review of the literature up to May 2021. *Journal of Transport and Health*, 26 101356

Hall S, Stacey P, Pengelly I, Stagg S, Saunders J and Hambling S. (2022) Characterising and comparing emissions of dust, respirable crystalline silica and volatile organic compounds from natural and artificial stones. *Annals of Work Exposures and Health*, 66 (2), 139-149

Hanna S, Mazzola T, Chang J, Spicer T, Gant S and Batt R. (2022) Gaps in Toxic Industrial Chemical (TIC) Model Systems: Improvements and Changes over Past Ten Year. *Process Safety Progress*, 41(1) 151-166

Jones K, Galea K, Scholten B, Loikala M, Porras S, Bousoumah R, Ndaw S, Leese E, Louro H, Silva M, Viegas S, Godderis L, Verdonck J, Poels K, Goen T, Duca R, Santonen T and HBM4EU Diisocyanates Study Team (2022) HBM4EU diisocyanates study - research protocol for a collaborative European human biological monitoring study on occupational exposure. *International Journal of Environmental Research and Public Health*, 19 (14), 8811

Loizou G, McNally K, Paini A and Hogg A (2022) Derivation of a Human In Vivo Benchmark Dose for Bisphenol A from ToxCast In Vitro Concentration Response Data Using a Computational Workflow for Probabilistic Quantitative In Vitro to In Vivo Extrapolation. *Frontiers in Pharmacology*, 12 754408

Louro H, et al including Jones K. (2022) The use of human biomonitoring to assess occupational exposure to PAHS in Europe: A comprehensive review.*Toxics* 10(8) 480

McNally K, Goede H, Schinkel J, Gorce J-P and Warren N (2022) The Dermal Advanced REACH Tool (dART): a Bayesian model for dermal exposure assessment. *Annals of Work Exposures and Health*, 66 (5), 602-617

Morton J, Sams C, Leese E, Garner F, Iqbal S and Jones K (2022) Biological monitoring: evidence for reductions in occupational exposure and risk. *Frontiers in Toxicology,* 4

Mueller W, Atuhaire A, Mubeezi R, Van Den Brenk I, Kromhout H, Basinas I, Jones K, Povey A, Van Tongeren M, Harding A-H, Galea K and Fuhrimann S (2022) Evaluation of two-year recall of self-reported pesticide exposure among Ugandan smallholder farmers. *International Journal of Hygiene and Environmental Health,* 240 113911

Mueller W, Jones K, Mohamed H, Bennett N, Harding A-H, Frost G, Povey A, Basinas I, Kromhout H, Van Tongeren M, Fuhrimann S and Galea K (2022) Recall of exposure in UK farmers and pesticide applicators: trends with follow-up time. *Annals of Work Exposures and Health,* 66 (6), 754-767

Ndaw S, et al including Leese, L. (2022) HBM4EU chromates study - Usefulness of measurement of blood chromium levels in the assessment of occupational Cr(VI) exposure. *Environmental Research*, 214 (1), 113758

Nwoko K, Kenny L and Jones K (2022) Methylenediphenyl diisocyanate lysine conjugates in the urine of workers exposed to methylenediphenyl diisocyanate. *Toxicology and Industrial Health,* 38 (9), 636-642

Ohlander J, Fuhrimann S, Basinas I, Cherrie J, Galea K, Povey A, Van Tongeren M, Harding A-H, Jones K, Vermeulen R, Huss A and Kromhout H (2022) Impact of occupational pesticide exposure assessment method on risk estimates for prostate cancer, non-Hodgkin's lymphoma and Parkinson's disease: results of three meta-analyses. *Occupational and Environmental Medicine*, 79 (8), 566-574

Pique S, Quesnel S, Weinberger B, Novelot Q, Houssin D, Vyazmina E, Torrado D and Saw J-L (2022) Preliminary risk assessment of hydrogen refuelling stations in a multifuel context. *Chemical Engineering Transactions*, 90 229-234

Raja A, Van Veldhoven K, Ewuzie A, Frost G, Sandys V, Atkinson B, Nicholls I, Graham A, Higgins A, Coldwell M, Simpson A, Cooke J, Bennett A, Barber C, Morgan D, Atchison C, Keen C, Fletcher T, Pearce N, Brickley E and Chen Y (2022) Investigation of a SARS-CoV-2 outbreak at an automotive manufacturing site in England. *International Journal of Environmental Research and Public Health,* 19 (11), 6400

Rasmussen P, Levesque C, Butler O, Chenier M and Gardner D (2022) Selection of metric for indoor-outdoor source apportionment of metals in PM2.5: mg/kg versus ng/m3. *Indoor Air,* 32 (1), e12924

Ruiz P, and Loizou G (2022) Editorial: application of computational tools to health and environmental sciences, Volume II. *Frontiers in Pharmacology*, 13, 1102431.

Santonen T et al including Jones K and Leese E.(2022) HBM4EU Chromates study - overall results and recommendations for the biomonitoring of occupational exposure to hexavalent chromium. *Environmental Research*, 204 (Part A), 111984

Shelke A, Buston J, Gill J, Howard D, Abbott K, Goddard S, Read E, Howard G, Abaza A, Cooper B and Wen J (2022) Characterizing and predicting 21700 NMC lithium-ion battery thermal runaway induced by nail penetration. *Applied Thermal Engineering*, 209, 118278

Shelke A, Buston J, Gill J, Howard D, Williams R, Read E, Abaza A, Cooper B, Richards P and Wen J (2022) Combined numerical and experimental studies of 21700 lithium-ion

battery thermal runaway induced by different thermal abuse. *International Journal of Heat and Mass Transfer*, 194 123099

Stacey P, Clegg F, Rhyder G and Sammon C(2022) Application of a Fourier Transform Infrared (FTIR) Principal Component Regression (PCR) chemometric method for the quantification of respirable crystalline silica (quartz), kaolinite and coal in coal dusts from Australia, UK and South Africa. *Annals of Work Exposures and Health,* 66 (6), 781-793

Stacey P, Clegg F, Rhyder G and Sammon C (2022) Correction to: Application of a Fourier Transform Infrared (FTIR) Principal Component Regression (PCR) chemometric method for the quantification of respirable crystalline silica (quartz), kaolinite and coal in coal dusts from Australia, UK and South Africa. *Annals of Work Exposures and Health*, 66 (6), 825-826

Stacey P, Clegg F and Sammon C (2022) Multicomponent measurement of respirable quartz, kaolinite and coal dust using Fourier Transform Infrared (FTIR): A comparison between partial least squares and principal component regression. *Annals of Work Exposures and Health*, 66 (5), 644-655

Stettler M, et al including Coldrick, S. (2022) Source terms for benchmarking models of SARS-CoV-2 transmission via aerosols and droplets. *Royal Society Open Science*, 9 212022

Vendra C, Shelke A, Buston J, Gill J, Howard D, Read E, Abaza A, Cooper B and Wen J (2022) Numerical and experimental characterisation of high energy density 21700 lithium-ion battery fires. *Process Safety and Environmental Protection*, 160 153-165

Viegas S et al including Jones K and Leese E. (2022) HBM4EU Chromates study: determinants of exposure to hexavalent chromium in plating, welding and other occupational settings. *International Journal of Environmental Research and Public Health,* 19 (6), 3683

Visser M, Gosens I, Bard D, Van Broekhuizen P, G. J, Kuempel E, Riediker M, Vogel U and Dekkers S. (2022) Towards Health-based Nano Reference Values (HNRVs) for occupational exposure: recommendations from an expert panel. *NanoImpact*, 26 100396

Zare Jeddi M, et al including Jones K (2022) Developing human biomonitoring as a 21st Century Toolbox within the European Exposure Science Strategy 2020-2030. *Environmental International*, 168, 107476

Preprints

Atkinson B, Van Veldhoven K, Nicholls I, Coldwell M, Clarke A, Frost G, Atchison C, Raja A, Bennett A, Morgan D, Pearce N, Fletcher T, Brickley E and Chen Y (2022) An outbreak of SARS-CoV-2 in a public-facing office in England, 2021. medRxiv

Hall S, Johnson P, Bailey C, Gould Z, White W and Crook B (2022) Evaluation of face shields, goggles and safety glasses as a virus transmission control measure to protect the wearer against cough droplets. *Preprints*, 2022020323

Conference publications

Conference papers

Birkitt K, Hobbs J and Chapman I (2022) Failure of a 30 inch diameter oil pipeline due to atmospheric corrosion. *Hazards 32*, Harrogate, UK, 18-20 Oct 2022, Paper 5

Gant S, et al including including Hetherington R, McGillivray A, Kelsey A and Tucker H (2022) Summary of results from the Jack Rabbit III international model inter-comparison exercise on Desert Tortoise and FLADIS. *HARMO21 21st International Conference on Harmonisation within Atmospheric Dispersion Modelling for Regulatory Purposes, Aveiro, Portugal,* 27-30 Sept 2022

Hetherington R, Tickle G, Bowman V, Silk D, Gant S, Kelsey A, McGillivray A and Tucker H (2022) Drift modelling of the Desert Tortoise and FLADIS ammonia trials for the Jack Rabbit III model inter-comparison exercise. *HARMO21 21st International Conference on Harmonisation within Atmospheric Dispersion Modelling for Regulatory Purposes*, Aveiro, Portugal, 27-30 Sept 2022

Inan E, Thompson P, Christopoulou F, Yates T and Ananiadou S. (2022) Knowledge graph enrichment of a semantic search system for construction safety. In: Arai, K. (eds) *Intelligent Systems and Applications: IntelliSys 2022. Lecture Notes in Networks and Systems,* vol 544, 33-52

McGillivray A, Harper M, Hart F, Puttick S, Ibrahim A, Verdier L, Gant S, Hetherington R and Tucker H (2022) PHAST modelling of the Desert Tortoise and FLADIS ammonia trials for the Jack Rabbit III model inter-comparison exercise. *HARMO21 21st International Conference on Harmonisation within Atmospheric Dispersion Modelling for Regulatory Purposes*, Aveiro, Portugal, 27-30 Sept 2022, 087

Newton A (2022) Pipeline release rate model (PiRRaM) for pressure liquefied gases. *Hazards 32*, Harrogate, UK, 18-20 Oct 2022, Paper 2

Simpson A, Saunders J and Keen C (2022) Investigation into workplace ventilation at COVID-19 outbreak sites. *Indoor Air 2022*, Kuopio, Finland, 12th-16th June 2022

Conference abstracts

Descatha A and Jones K (2022) Special session 8 from the chemical massive disaster to the prevention. *Safety and Health at Work*, 13 (Supp), S22 Abstract of the 33rd International Congress on Occupational Health 2022 (IOCH 2022) 6-10 February 2022, S22

Fishwick D, Carder M, Iskandar I, Fishwick B and Van Tongeren M (2022) Occupational inhalation accidents in the UK: findings from the Surveillance of Work Related Occupational Respiratory Diseases (SWORD) scheme 1999-2018. *Safety and Health at Work*, 13 (Supp Abstract of the 33rd International Congress on Occupational Health 2022 (IOCH 2022) 6-10 February 2022), S123-124

Lewis C, Johnson S, Hartwig A, Ubido J, Coleman A, Gartland N, Kamal A, Goakar A, Armitage C, Fishwick D and Van Tongeren M (2022) OP61 Areas of COVID-19 prevalence: drivers of prevalence and mitigating strategies. *Journal of Epidemiology and Community Health*: SSM Annual Scientific Meeting Sept 2022, A29-A30

Morton J, Sams C, Leese E, Garner F, Iqbal S and Jones K (2022) Biological monitoring: evidence for reductions in occupational exposure and risk. *Safety and Health at Work*, 13 (Supp Abstract of the 33rd International Congress on Occupational Health 2022 (IOCH 2022) 6-10 February 2022, S240

Sandys V, Keen C, Simpson A, Coldwell M, Atkinson B and Chen Y (2022) The implementation of environmental risk controls at worksites experiencing COVID-19 outbreaks - UK COVID-19 National Core Studies Consortium. *Safety and Health at Work*, 13 (Supp Abstract of the 33rd International Congress on Occupational Health 2022 (IOCH 2022) 6-10 February 2022, S173-S174

Santonen T, et al including Jones K, and Leese L.and L. (2022) Assessment of occupational exposure to hexavalent chromium - recommendations from HBM4EU chromates study. *Safety and Health at Work*, 13 (Supp Abstract of the 33rd International Congress on Occupational Health 2022 (IOCH 2022) 6-10 February 2022), S56-S57

Thompson C, Webb S, Leedale J, Penson P, Paini A, Ebbrell D and Madden J P17-04 An automated tool for selection of chemical analogues to facilitate development of new physiologically-based kinetic models using a read-across approach. *Toxicology Letters:* Abstracts of the XVIth International Congress of Toxicology (ICT 2022) - Uniting in Toxicology 18-21 Sept 2022, Maastricht, Netherlands, 1 Sept 2022, S228

Trade and professional magazine articles

Wood dust: do you have adequate controls in place to protect your staff and comply with HSE guidance?*Woodworking News*, 37 (4), 17

Hawker A. (2022) Lower noise, vibration and dust emissions from angle grinding - recent HSE research. *Acoustics Bulletin*, 48-49

Hawker A. (2022) Lower noise, vibration and dust emissions from angle grinding. *Exposure Magazine*, 14

Sandys V. (2022) Occupational hygienists play a key role in COVID-19 research. *Exposure Magazine*, 1 Mar 2022, 18

Simpson A. and Lekka C. (2022) HSE research on wood dust in manufacturing. *Woodworking News,* April 2022, 37(4) 23

Book chapters

Ewan B, Moodie K and Hawksworth S Chapter 4 - Accident consequences. In: ed, Hydrogen Safety for Energy Applications: Engineering design, risk assessment, and codes and standards, 2022, 195-261

Fishwick D and Barber C Chapter 3: Respiratory Disorders. In: ed, In: Textbook of Occupational Medicine Practice (5th ed) 2022, 55-105

Hawksworth S, Jordan T, Jeffrey K and Melideo D Chapter 5 - Risk assessment. In: ed, Hydrogen Safety for Energy Applications: Engineering design, risk assessment, and codes and standards, 2022, 263-299

Reports by HSE scientists and expert committees

Research report series – reports RR1165 to RR1189

Coleman A, Gartland N, Fishwick D, Johnson S. and van Tongeren, M. (2022) Perceptions of transmission and mitigation of SARS-CoV-2: public transport. Theme 3 WP1 deep dives. PROTECT COVID-19 National Core Study on Transmission and Environment (PROTECT-02)

Giannissi S, et al. including Rattigan W, Moodie K, Pursell M. (2022) D2.3 Final report on analytical, numerical, and experimental studies on hydrogen dispersion in tunnels, including innovative prevention and mitigation strategies. HyTunnel.

Health and Safety Executive (2022) Annual Science Review 2022, HSE

Health and Safety Executive (2022) Re-use of personal protective equipment (PPE) during the SARS-CoV-2 (COVID-19) pandemic: Evidence summary to August 2020. (ER004) HSE.

HSE Workplace Health Expert Committee (WHEC) (2022) Work-related suicide.>(WHEC-18) HSE.

Markert F, et al. including Bergin S and Pursell M. (2022)D3.3 Final report on analytical, numerical, and experimental studies on fires, including innovative prevention and mitigation strategies.HyTunnel

OECD (2022) Occupational Biomonitoring Guidance Document, OECD Series on Testing and Assessment,No. 370, Environment, Health and Safety, Environment Directorate, OECD

Rattigan W, et al.including Moodie K. (2022) 4.3 Final report on analytical, numerical, and experimental studies on explosions, including innovative prevention and mitigation strategies.HyTunnel

Saw J-L et al including Rattigan W, Moodie K, Bergin S, Wilday J and Pursell M. (2022) D6.9 Recommendations for inherently safer use of hydrogen vehicles in underground traffic systems.HyTunnel

National and official statistics publications

Health and Safety Executive (2022) Management information: Coronavirus (COVID-19) disease reports made by employers to HSE and local authorities since 10 Apr 2020.

Health and Safety Executive (2022) Pesticide usage survey report: Soft fruit crops in the UK, 2020.

Health and Safety Executive (2022) Pesticide usage survey report: Orchards in the United Kingdom, 2020.

Health and Safety Executive (2022) Pesticide usage survey report: Potato stores in the United Kingdom 2020.

Health and Safety Executive (2022) Fatal injuries arising from accidents at work in Great Britain: Summary for April to December 2021.

Health and Safety Executive (2022) Exposure to lead in Great Britain 2020 to 2021.

Health and Safety Executive (2022) Fatal injuries in the workplace in Great Britain 2021 to 2022 (year end March): Annual release. Available at:

Health and Safety Executive (2022) Mesothelioma and asbestosis mortality in Great Britain: 1968 to 2020.

Health and Safety Executive (2022) Fatal injuries arising from accidents at work in Great Britain: Summary for April to June 2022.

Health and Safety Executive (2022) Health and safety statistics: 2021 to 2022 annual release.

Health and Safety Executive (2022) Pesticide usage survey report: Outdoor vegetable crops in the United Kingdom 2021.
