

FIT OUT CAMPAIGN

Get it **RIGHT** when working at **HEIGHT!**

Make sure you select the right bit of kit when working at height. Low falls account for 50% of falls in the construction industry.

If you cannot work do you get paid?

This October Inspectors from the Health and Safety Executive will be checking to see if your site is in good order and that you are getting it right when working at height.

For more information: HSE Infoline can be contacted at HSE Information Services, Caerphilly Business Park, Caerphilly, CF83 3GG. Tel: 0845 345 0055, email hseinformation@natbrit.com, or visit HSE website www.hse.gov.uk/construction/
