

Direct Advice Summary Page

'COSHH essentials' was developed by the Health and Safety Executive with Industry and the TUC. It provides simple step-by-step advice for small businesses on controlling health risks to workers from chemicals and products containing chemicals. Your risk assessment will identify if you need to do more than this.

<http://www.coshh-essentials.org.uk>

Guidance Sheets give information on the appropriate control measures. Print them, and print this summary as evidence of your assessment.

Date of assessment : 25/9/2008 10:50:48
Industry : Service industries
Work : Motor vehicle repair and maintenance

Selected Guidance sheets :

Activity Name	Guidance Sheet Title	Number
Paint spraying and allied tasks	Mixing two-pack (2K) paint containing isocyanate	MR1
Paint spraying and allied tasks	Spraying two-pack (2K) products in a spray booth or room	MR2
Paint spraying and allied tasks	Cleaning two-pack (2K) paint spray guns	MR3
Paint spraying and allied tasks	Brush or roller application of two-pack (2K) products	MR4
Paint spraying and allied tasks	SMART spraying with two-pack (2K) products	MR5
Repair tasks	Work with motor vehicle fuel - diesel, petrol, LPG	SR16
Repair tasks	Work with lubricants and waste oil	SR19
Repair tasks	Dust from abrasive wheels	SR21
Repair tasks	Solvent degreasing (low volatility, small scale work)	SR23
Repair tasks	Hot work on painted panels eg welding, cutting, grinding	MR6
Cleaning tasks	Cleaning and disinfection using low-pressure washers	SR01
Cleaning tasks	Valeting etc with solvent-based products	SR17
Cleaning tasks	Diluting chemical concentrates	SR02
Other tasks	Vehicle exhaust fume (in warehouses, garages, etc)	SR14
Other tasks	Charging batteries for electrically powered vehicles	SR18
Other tasks	Storing chemical products (small scale)	SR24

	Guidance Sheet Title	Number
	Advice for managers	MR0
	Guidance Sheet Title	Number
	R3 - UK Standard Assigned Protection Factor 20 (APF20)	RPE3
	Guidance Sheet Title	Number
	R5 - Breathing apparatus with UK Standard Assigned Protection Factor 40	RPE5
	Guidance Sheet Title	Number
	Health monitoring for chronic obstructive pulmonary disease	G401
	Guidance Sheet Title	Number
	Health surveillance for occupational dermatitis	G403
	Guidance Sheet Title	Number
	New and existing engineering control systems	G406
	Guidance Sheet Title	Number
	Urine sampling for isocyanate exposure measurement	G408

Your task involves exposure to a substance for which health surveillance for asthma is needed. The following Guidance Sheet applies.

	Guidance Sheet Title	Number
	Health surveillance for occupational asthma	G402

Please think carefully about how to put this advice into practice. It is worth making an action plan now, to save time and money in the long run. The steps to take are:

- Check that the advice matches your activity
- Plan how to put the advice into practice, or what equally effective measures to use
- Review the assessment when you have made the changes

Caution: don't forget safety hazards (eg flammability) or the environment (eg disposal).
